

THE AMERICAN RIFLEMAN

INDEX

VOLUME 96

1948

The index of Volume 96 of THE AMERICAN RIFLEMAN has been compiled in new form for the benefit of those readers whose interest in firearms or work with guns requires constant reference to the material which has been published in the magazine.

The indexing of 1948 issues was done in one or more ways: by specific subject and related subjects, by author, and by general subject. Thus, the entries which were made for "The M1 on the Range", by Major General Julian S. Hatcher (Sept. 13), can be found under 'Garand', 'Hatcher', 'M1', 'Match rifle', and 'Rifle', while the Dope Bag item "Silencers" is listed only by the entry 'Silencers'. Importance of a subject and the amount of space devoted to it in the magazine, as well as the number of related headings in the index in which it falls, all have had some bearing upon the number of entries which can be found for it.

Deluxe RIFLEMAN BINDER

Many, many thousands of our subscribers use this deluxe binder to keep their copies of the RIFLEMAN clean, compact, and conveniently available. The rich maroon fabricoid covers, die stamped in gilt, provide a pleasing contrast . . . a worthwhile addition to any man's library!

Each binder is furnished with twelve stainless steel wires to hold a whole year of the RIFLEMAN. You simply insert the magazines and snap the little wire holders into place, that's all—no cutting or punching necessary. And, whether you insert only a single copy or a full year of the RIFLEMAN, the binder always opens flat, just like a book.
